

REMARKSIn the Claims:

Claims 58, 60, 61, 63 and 64 have been canceled. The claims were canceled solely to expedite allowance of the application. As such, all of the Examiner's objections and rejections have been obviated. Accordingly, Applicant respectfully request reconsideration and withdrawal of the claim objections and rejections.

Allowed Claims:

Applicant points out that claims 57, 59 and 62 were allowed in the first office action. The Examiner incorrectly listed claims 57, 59 and 62 as rejected on form PTOL-326. Since no rejection of these claims was made in the final rejection the claims are still allowed (Applicant points out that these claims were not addressed in any manner in the final rejection). As such, all of the pending claims are in condition of allowance and the case should promptly proceed to issuance.

In the event the Examiner makes a rejection or objection to any of claims 57, 59 or 62, Applicant points out that the action must be made non-final as the claims were allowed in the first office action and not addressed in the final rejection. However, as the case has now been examined twice and the claims found allowable on both occasions, Applicant is confident this will not be an issue.

If the Examiner feels that a telephone conference would in any way expedite the prosecution of the application, Applicant requests a call be made to the undersigned at 781-674-7852.

Respectfully submitted,
